

TOP COMB

Engineered for Wool Combing Machines

Better Engineering For Better Fibre

To grow our global footprint across
120+ countries and partner with clients
to build a circular economy through
cutting-edge engineering support.

PINNING EXCELLENCE ACROSS DECADES

ZUVON, a globally recognised brand under the esteemed Bajaj Industries umbrella, is a trusted manufacturer & supplier of high-quality pins, pinned products, and engineered components for the textile industry. With a robust global footprint, we continuously set new benchmarks in precision, efficiency and innovation for fibre processing applications.

Our expertise extends across multiple sectors, including the worsted industry, hard & bast fibre processing, recycling & rag tearing, and cotton preparation. By combining advanced manufacturing capabilities with stringent quality control, we ensure that every product meets the precise needs of leading textile manufacturers worldwide.

With a strong commitment to engineering excellence, we continue to drive innovation, efficiency, and reliability across diverse industries.

TOP COMB

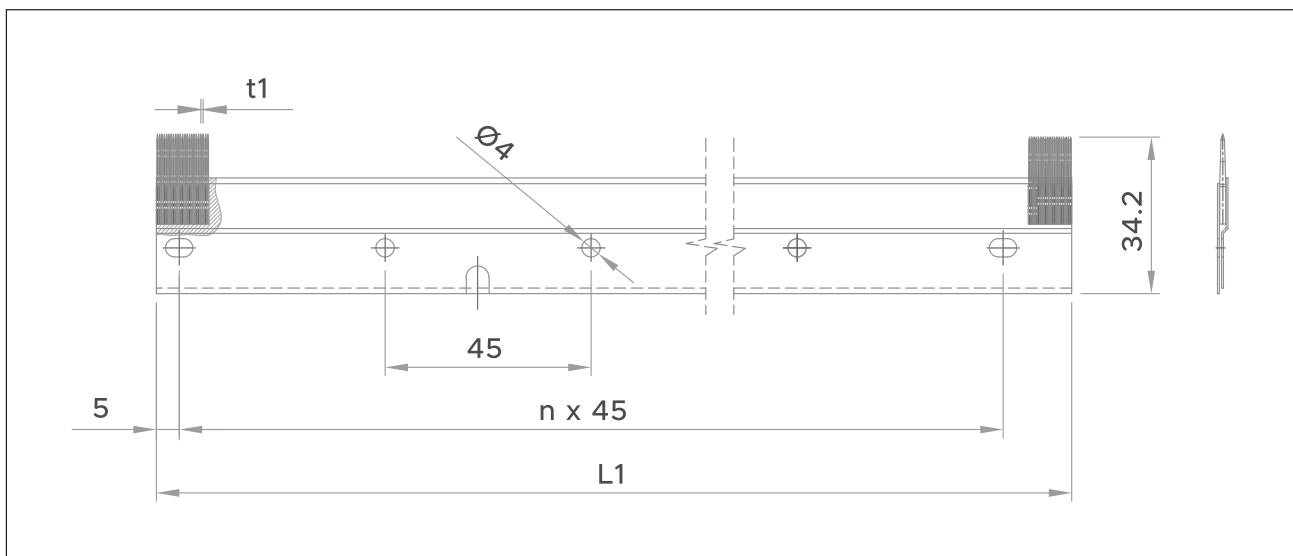

KEY PROPERTIES

- ♦ Excellent combing of fibre tuft ends
- ♦ Durable design for consistent performance
- ♦ Engineered for easy replacement and long-term use

APPLICATION TYPE

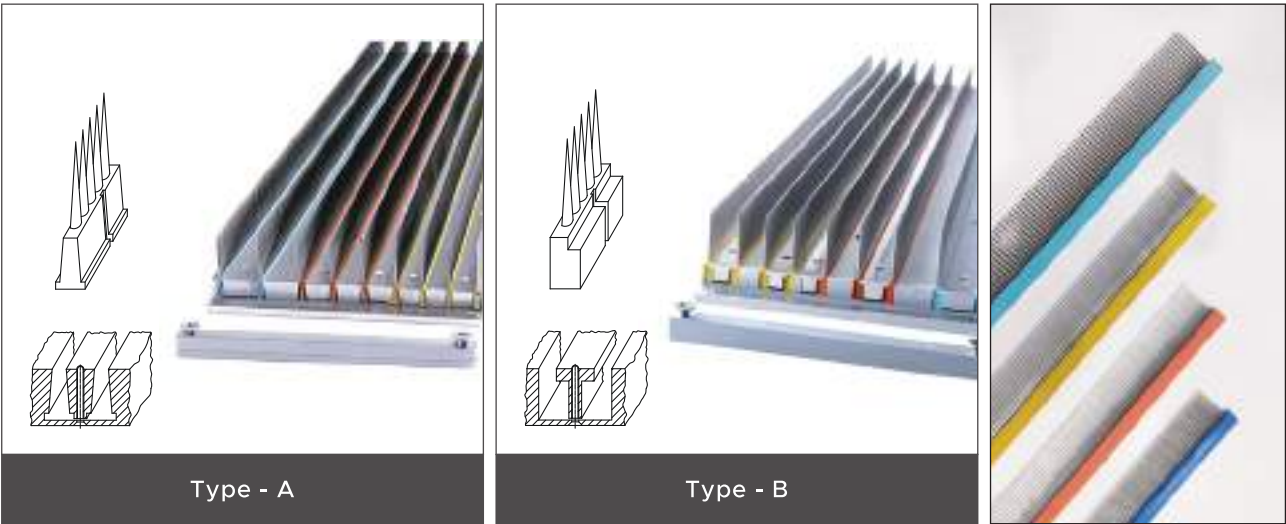

Pinning densities	14-32 N/cm
Length of strip	450mm, 460 mm, 470 mm, 510 mm
Projections	8.2mm standard, 9.2mm or 10.2mm for processing flax
Machine types	NSC n. Schlumberger - PB26-33, St. Andrea – up to PB 90, Textima – all types SMB Leisnig - all types Shanghai Nr.1 – B311, B251-FX251

FEED COMB

In addition to top combs, we also manufacture feed combs as a secondary pinned product for combing machines. Alongside fully pinned feed comb plates and pin strips, we supply all compatible spare parts, including wedges, dampers, and fixing screws, even for older models of combing machines.

FEED COMB PIN STRIPS

The feed comb pin strips are available in two different designs: plastic base in **trapeze** form and plastic base in **L** form.

PINNING DENSITIES

Different colours for identification of different pin densities (in cm)

COLOUR	BLUE	ORANGE	YELLOW	PINK
Type - A	5	6	7	8.5
Type - B	5	6	7	8.5

MACHINE TYPE

Suitable for Schlumberger, St Andrea, Textima & other Combers

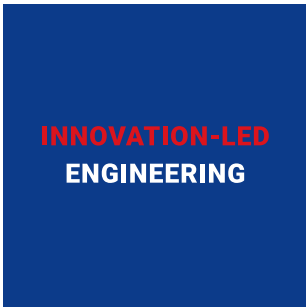

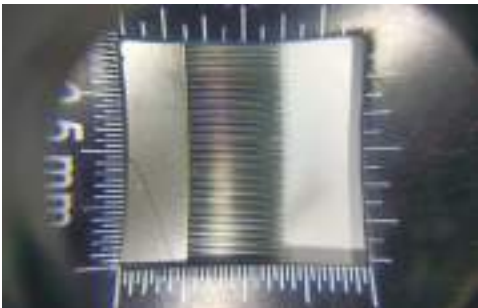

Type	Plastic pin-strip for insertion into aluminium base
Model	Type A and Type B
Properties	No adhesive, No heating, All-purpose use, Robust, Reliable
Range of applications	All the combing machines listed above
Pinning and pin removal	No additional equipment needed

OUR PRODUCTS ARE COMPATIBLE WITH THE FOLLOWING MACHINE BRANDS

- NSC
- MILLENIUM
- TEXTIMA
- ST. ANDREA

OUR WORLD-CLASS MANUFACTURING INFRASTRUCTURE

Our state-of-the-art production facility delivers high-performance top combs with unmatched precision.

ENGINEERED IN INDIA, TRUSTED GLOBALLY

ENGAGING WITH THE INDUSTRY

We engage with industry leaders and innovators through client interactions, on-site visits, and participation in international industry events. These touchpoints strengthen relationships, showcase our engineering excellence, and keep us aligned with the evolving needs of textile and industrial applications worldwide.

TRUSTED BY CLIENTS ACROSS 80+ COUNTRIES

We work closely with 100+ customers across 80+ countries globally.
We partner with Textile Mills, select OEMs, and Service Providers.
